**HYBRID TENNIS STRINGS**

A Hybrid tennis string is a combination of a durable main string and an elastic cross string, for frequent string breakers who are looking for power but requiring an element of feel at the same time. Choose your main string as either a 'Spin/Power/Durability' string and combine with a 'Feel' string as your crosses. For example –

**Mains - Head Lynx Tour - 1.30mm Grey**      **Crosses - Wilson Sensation - 1.30mm Neon Green**      £20.00

**YOUR OWN STRING** – provide your own string      £10.00
